

Domain Names You Can Prosper From:

Beginning as long ago as October of 1998, we began, merely as a hobby, locking up some extremely valuable non-copyrighted, non-trademarked domain names that we are freeing up now for use by CLIENTS, POTENTIAL CLIENTS or for various business deals.

If you feel any of these domains can be of value to you, contact Jeff@TranscriptionStudio.com, and let's talk.

If you don't already know the value of domain names, it's important to realize how much traffic they can draw to your own website.

Unlike a T-shirt or other product that can be endlessly re-produced, there's only one CINDERELLASTORY.COM, etc... and that one gets nearly 50,000 searches per-month!

We'd prefer NOT TO SELL these domain names but rather offer them as an added-value benefit to our clients or as an enticement to do business with new clients.

Take a look at what we own as of: February 1, 2007.
